Education is the foundation of our society

We believe that it is essential for teachers and schools to innovate and develop in order to meet the changing demands of world education, both today and tomorrow.

Founded in 2009, **University of Dayton Publishing (UDP)** is the result of an alliance between SM, a leading content publisher, and the University of Dayton, a top-tier research university.

Solutions for the specific needs of teachers and learners

UDP offers first class resources for teaching and learning English as a foreign language.
From print materials and digital resources, to modern teacher training, our unique catalogue of products and services has been designed to provide innovative solutions for both teachers and learners.

Creative and engaging blended-learning solutions

In our dual roles as publisher and educational consultant, we deliver tailor-made solutions to help schools improve their curriculum design, integrating the latest developments and technologies into teaching and learning.

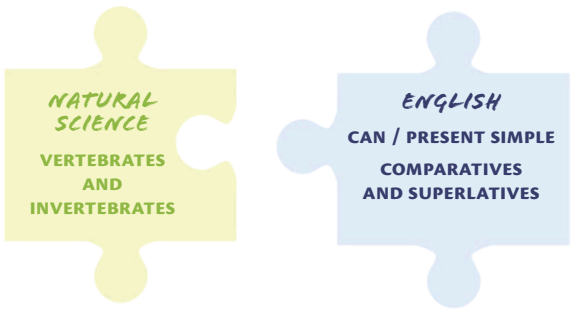
We integrate **English and content**

INTEGRATED LEARNING

University of Dayton Publishing provides solutions for plurilingual programmes with **English for Plurilingual Schools (EPS)**.

Content subjects form the basis of the topics covered in the language integration:

The language in focus depends on the subject of each project.



In order to integrate language and contents, units from the English books (EPS) and Natural and Social Science projects work in parallel.

This integration begins in Pre-primary, where the language is progressive and the English level advances each year.

DAVID MARSH

If you integrate English with other subjects, it is more than one plus one. It is a language learning experience, which is clearly effective.

ROOTS

- CLIL: Integration of subjects
- Language ⟷ Content
- Service-learning Term projects
- Increased exposure to the language and content.

DAVID MARSH *It is not a jump into the unknown, it is a jump into the 21st Century.*

CONTENT SUBJECTS

NATURAL SCIENCE AND SOCIAL SCIENCE

- Integrated with English through a careful sequencing of content.
- The service-learning projects provide a structure for the content, creating an environment in which meaningful learning and cooperative learning are enhanced.

MUSIC AND ARTS & CRAFTS

- Dynamic activities motivate students and encourage a love of music.
- Creative hands-on tasks stimulate pupils' artistic skills and techniques.

INTEGRATION

ENGLISH

PRE-PRIMARY

- Improves pupils' level of English and builds a solid bridge between Pre-primary and Primary.
- Focused on oral communication.
- The phonic system used in Liu & Liam has been developed exclusively for Spanish speakers.

PRIMARY

- Consolidates speaking skills before introducing and developing writing.
- Grammar structures are introduced inductively in the Ninja Grammar section, providing a strong basis for the Using English section.
- This course helps students achieve the required level for Primary level external exams.

Liu and Liam

Natural and communicative

EPS is a **communicative English course** which begins with listening and speaking skills.
It uses the same natural sequence in which pupils learned their **mother tongue**.

Easy transition to Primary

Careful **scaffolding** and support help to bridge the gap between the last year of Pre-primary education and the first year of Primary, ensuring that children are fully prepared for Primary level.

Integrated learning

The children acquire language through content that is based on the world around them.
This integrated learning begins in Pre-primary, with a gradually increasing level.

The innovative approach of our EPS Pre-primary project helps our pupils become confident, competent speakers of English.

Complete lesson plans for every session

A comprehensive teacher's book features **detailed lesson plans** for both on book and off book sessions.

New Phonic system

Pupils start with sounds that exist in Spanish, then move onto similar sounds and finally English sounds.

- > Helps children become confident English speakers.
- > Provides extensive pronunciation practice.
- > Prepares children for the linguistic demands of bilingual Primary education.
- > Teaches children emotional intelligence, values, citizenship and healthy habits.

Pre-primary **Liu and Liam**

Liu & Liam Pre-primary English for children between the ages of 3 and 5. Language acquisition is calibrated to bridge the linguistic gap between Pre-primary and Primary Education.

FOR PUPILS

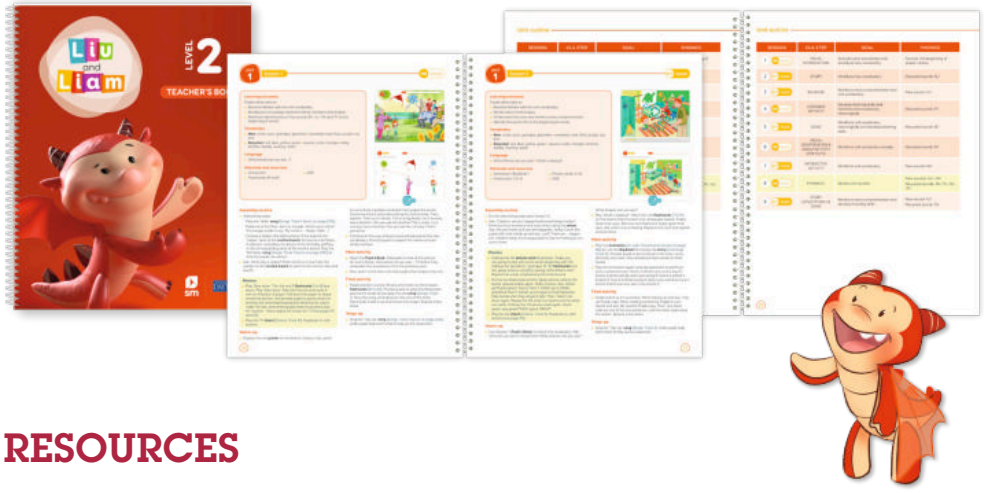
PUPIL's book

DIGITAL RESOURCES

Your pupils' personal workspace.

FOR TEACHERS

TEACHER's book



RESOURCES

- > Scrapbook
- > Flashcards
- > Phonic cards
- > Phoneme cards
- > Posters
- > Puppet
- > Routine board
- > Routine wheel
- > Big Books
- > Reward stamp

DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our website.

KEY FEATURES

Continuous and progressive learning

with an emphasis on fun. Vocabulary and language is acquired through context-based audiovisual activities.

Phonics system

teaches British pronunciation. It works pupils from sounds that exist in Spanish, to similar sounds, and finally English sounds.

Liu and Liam reflects the cultural diversity

of today's society. The books are based on the adventures of two children from different cultures, Liu and Liam, and their best friend, Bo the dragon.

Teachers are provided with on book and off book CLIL lesson plans.

más Savia **means MORE**

More self-sufficient*

Pupils develop autonomously and effectively at their own pace in their personal environment.

School education for life

más Savia keeps a constant eye on the future, to help us understand how to equip children for their adult lives.

We believe that the role of schools is not just to test the knowledge that children have acquired, but also to give them the skills and competence to use this knowledge in real life.

DAVID MARSH

más Savia for plurilingual schools provides a sequenced curriculum and highly visual contents to facilitate learning.

JAVIER BAHÓN.

More service learning*

Promoting values through service to society in diverse and multicultural contexts helps pupils prepare for life and work.

More engaged*

Helping to prepare pupils to play an active role in society and shape their world.

More global*

Providing children with language skills, knowledge and technolgical abilities helps them to develop analytical and problem-solving skills.

More competent*

Pupils acquire the lifelong skills they need to design, manage and evaluate their own personal projects, and work and live alongside other people.

* The DeSeCo (Definition and Selection of Competencies, from OCDE) competencies: providing a beacon of hope in a climate of change and uncertainty.

más Savia is #Educationforlife

más Savia Primary **Natural Science**

Integrated with English through a careful sequencing of content.

FOR PUPILS

PUPIL's book

The learning process has 3 different stages: Let's get started, Let's understand and Let's practise.

Linguistic contents are scaffolded, starting with communicative oral activities before moving on to reading and writing tasks. The content is reinforced by a language support glossary and a sequence of activities throughout the unit.

NOTEBOOK

Sold separately.

KEY FEATURES

Scope and sequence

of EPS has been carefully crafted to tie in with Cambridge Exams.

Grammar videos

90 grammar videos for teachers who may wish to focus on language structures.

Challenges

are a set of graded interactive activities which pay special attention to classroom diversity.

The language pupils need to explain what they know.

This is SAVIA

A learner-centred aproach

> Children are the true stars of the teaching and learning process.

> Different children have different ways of perceiving the world around them. Savia presents content in contexts that your learners can relate to, motivating them and respecting each child's learning pace to help them achieve meaningful learning.

Learning to be. Learning to live together

> Savia reflects our belief in values-based education.

> Each unit is built around a particular value, and the course follows a structured plan for developing values through the different stages of education.

Savia is a comprehensive course underpinned by a solid model of values-based education. It centres on children and on improving their results by addressing different learning paces and styles.

A truly plurilingual course:

> CLIL approach

> Graded language

> Visual and comprehensible

Support for teachers

Savia was developed in collaboration with teachers. As a result of your input, Savia incorporates practical, effective resources designed to facilitate teaching

Innovative methods

Savia includes **programmes designed to help you apply innovative methods** in your classroom in a way that feels natural. You can work with them at your own pace:

> Cooperative Learning.

> Learning to Think.

> Multiple Intelligences.

Savia Primary **Natural Science**

Natural Science uses the scientific method and experimentation to make learning meaningful.

FOR PUPILS

PUPIL's book

A communicative approach with careful sequencing to help pupils acquire all language skills.

WORKBOOK (from 3rd to 6th)

Sold separately.
Includes an Audio CD.

MAGAZINE (from 3rd to 6th)

Included with the Pupil's book.

DIGITAL RESOURCES

Your pupils' personal workspace.

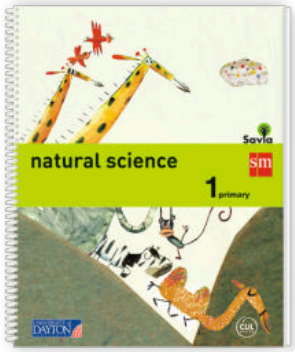
FOR TEACHERS

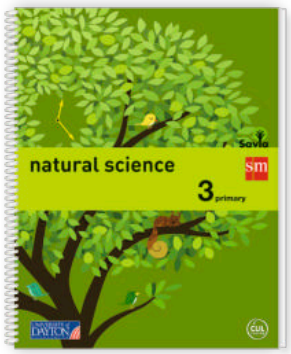
STEP-BY-STEP

Teaching notes with suggestions on guiding group activities and using role playing in the classroom.

> Flashcards and wordcards are included in the Classroom Box. They help pupils acquire and consolidate key concepts and provide visual support for activities.

> Interactive Posters





DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our website.

KEY FEATURES

Language scaffolding

Language is introduced gradually year by year to help pupils acquire language and learn contents.

A focus on team work

through role playing in the classroom, reinforced with learner-centred activities.

Activities to help

you prepare your pupils for external examinations.

Savia Primary **Social Science**

Social Science makes learning about History and Geography fun for pupils. Illustrations, timelines showing key historical events and concept maps enhance learning.

FOR PUPILS

PUPIL's book

A communicative approach with careful sequencing to help pupils build a wide range of skills.

WORKBOOK (years 3rd to 6th)

Sold separately.
Includes an Audio CD.

MAGAZINE (from 3rd to 6th)

Included with the Pupil's book.

DIGITAL RESOURCES

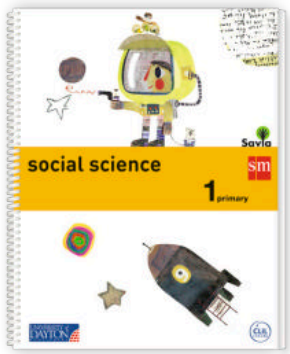
Your pupils' personal workspace.

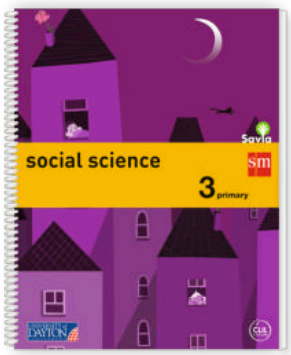
FOR TEACHERS

Teaching notes with suggestions on guiding group activities and using role playing in the classroom.

> Flashcards and wordcards are included in the Classroom Box. They help pupils acquire and consolidate key concepts and provide visual support for activities.

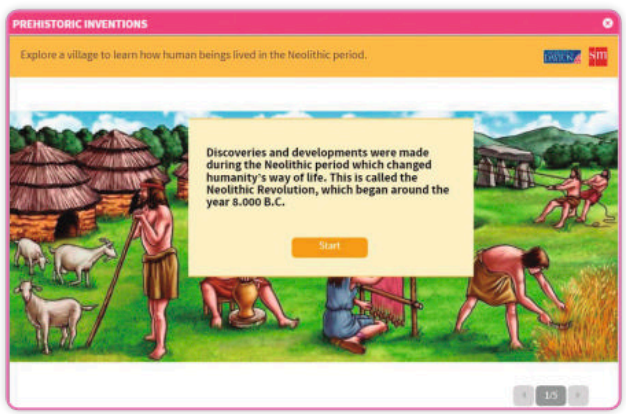
> Interactive Posters





DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our website.



KEY FEATURES

Clear language

The course uses clear language and a structured presentation of content to help pupils understand.

Who was

sections to foster reading about relevant characters throuthout history.

Activities to help

you prepare your pupils for external examinations.

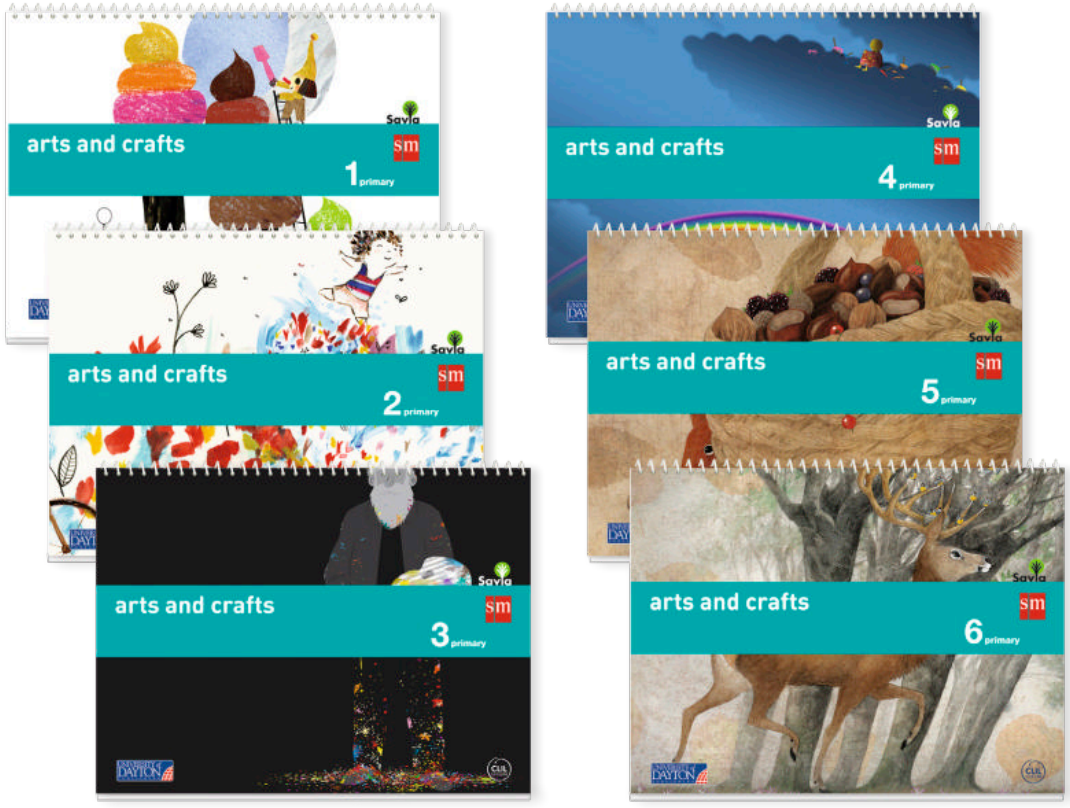
Savia Primary **Arts and Crafts**

Savia Arts and Crafts helps pupils acquire artistic techniques and skills. Its practical approach stimulates creativity and encourages pupils to learn through observation.

FOR PUPILS

PUPIL's book

With its visually attractive presentation, the content is linked to the Natural Science and Social Science course and features a wide range of materials and artistic techniques.



DIGITAL RESOURCES

Your pupils' personal workspace.

FOR TEACHERS

TEACHER's book

The Creativity section features step-by-step instructions on how to set up class discussions, as well as activities for introducing pupils to a wide range of artistic techniques.

KEY FEATURES

Clear language

The course uses clear language and a structured presentation of content to help pupils develop artistic autonomy.

Artistic techniques

presented in a way that encourages creativity.

Activities

with cut-outs for craft projects.

DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our website.

Savia Primary **Music**

Savia Primary Music engages pupils with its dynamic approach, helping to spark their interest in music.

FOR PUPILS

PUPIL's book

Its communicative approach and careful sequencing help pupils build a wide range of skills.

WORKBOOK

Pupils learn by doing with a series of hands-on activities to consolidate their understanding of the concepts covered. It explores a wide variety of music styles.

DIGITAL RESOURCES

Your pupils' personal workspace.

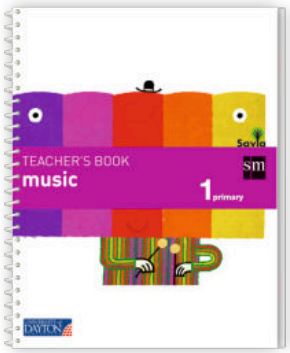
FOR TEACHERS

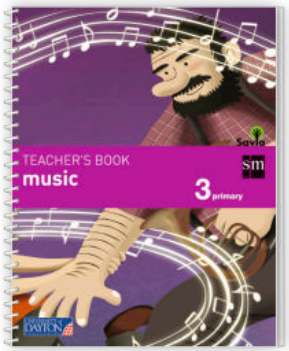
Teaching notes and interactive activities for teaching theatre and dance.

> Teacher's book with flashcards and wordcards

> Digital resources pack designed for PC and the IWB. It includes a USB with:

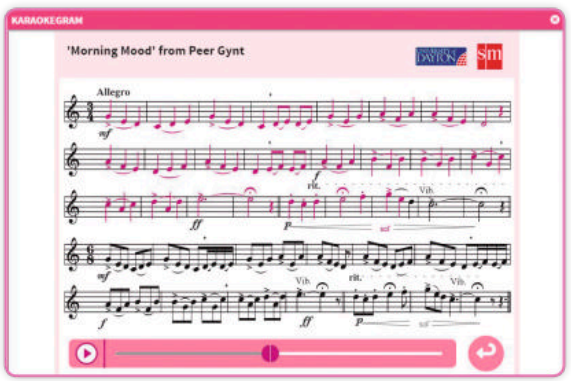
- Course syllabus.
- Support materials, including worksheets and resources for addressing mixed abilities and carrying out assessments. Answer keys are included.
- Interactive activities to help you present content and encourage speaking and team work.





DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our website.



KEY FEATURES

Clear language

> The course uses clear language and a structured presentation of content to help pupils develop artistic autonomy.

Artistic technique

> presented in a way that encourages creativity.

Activities

> Activities with cut-outs for construction projects.

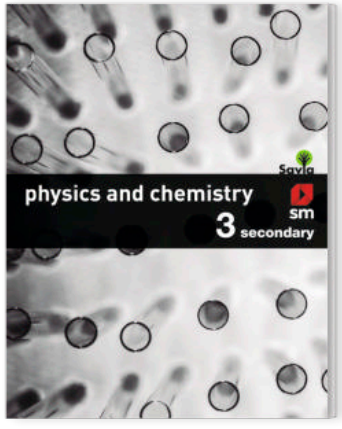
Savia Secondary **Physics and Chemistry**

This course follows the scientific method and features simple classroom experiments designed to encourage the pupils to participate in their own learning process.

FOR STUDENTS

STUDENT's book

The course contents include interesting contexts and solved activities as well as activities to be resolved by students.

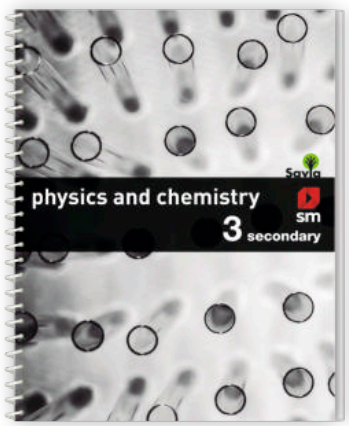


DIGITAL RESOURCES

Your students' personal workspace.

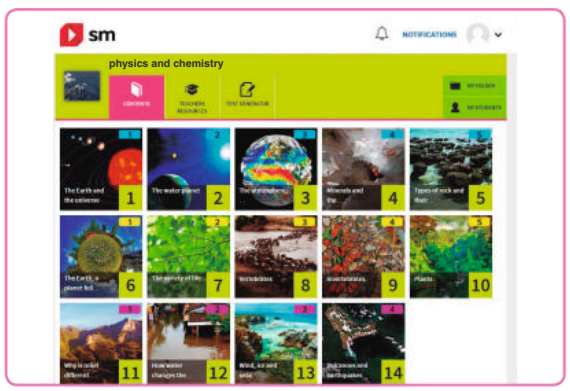
FOR TEACHERS

> Teaching notes
> Unit map outlining content and resources
> Answer keys
> Audio transcripts



DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our environment



KEY FEATURES

Research and experience

are necessary to learn and to learn by doing. Students actively participate in their learning process by using the scientific method in easy classroom experiences. The Science workshop makes students use the basic experimental techniques.

The starting point is the student

We use questions and situations close to the students as the starting point. There are images and illustrations which bring context to their reality, used to motivate them to learn and to ensure a meaningful learning process.

Skill-building activities

The Let's experiment, Let's observe, Let's observe and Let's check sections help students build skills through hands-on activities

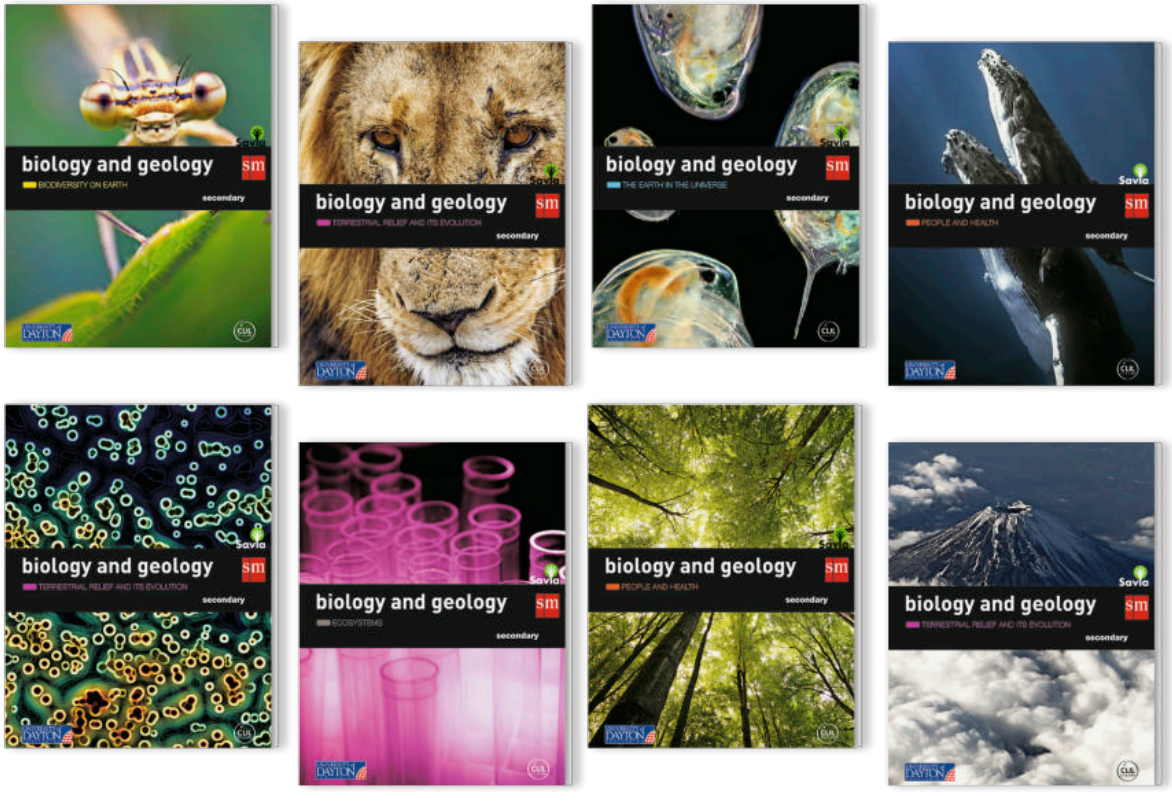
Savia Secondary **Biology and Geology**

This course follows the scientific method and features simple classroom experiments designed to encourage the pupils to participate in their own learning process.

FOR STUDENTS

STUDENT's book

The course contents are organised into different colour-coded volumes, and follow the curriculum of each Autonomous Community.



DIGITAL RESOURCES

Your students' personal workspace.

FOR TEACHERS

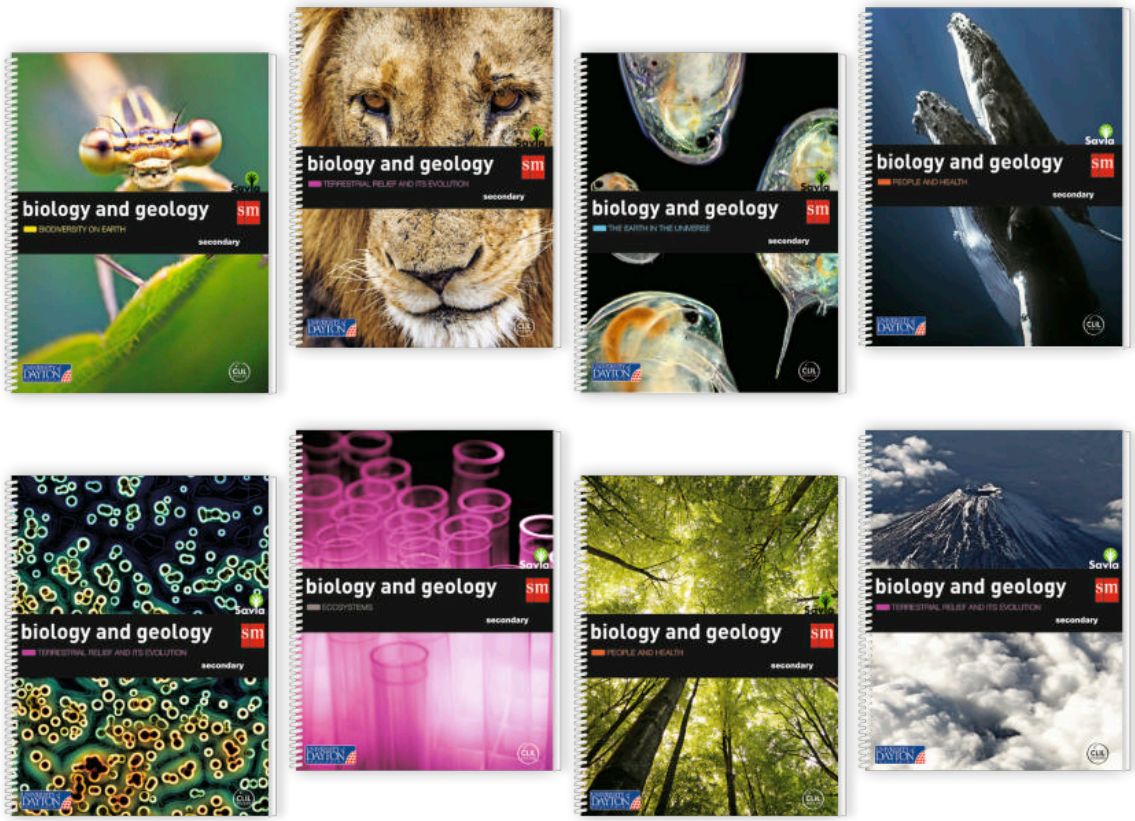
TEACHER's book

> Teaching notes.

> Unit map outlining content and resources.

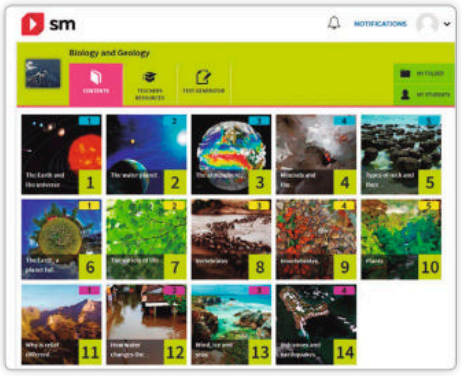
> Answer key.

> Audio transcripts.



DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our website.



KEY FEATURES

Eye-catching images

accompany content that is drawn from the real world and presented in context, in order to motivate students and ensure a meaningful learning process.

Learners

are encouraged to expand their knowledge with a research project in the Science Workshop section.

Skill-building activities

The Let's interpret, Let's analyse and Let's investigate sections help students build skills through hands-on activities.

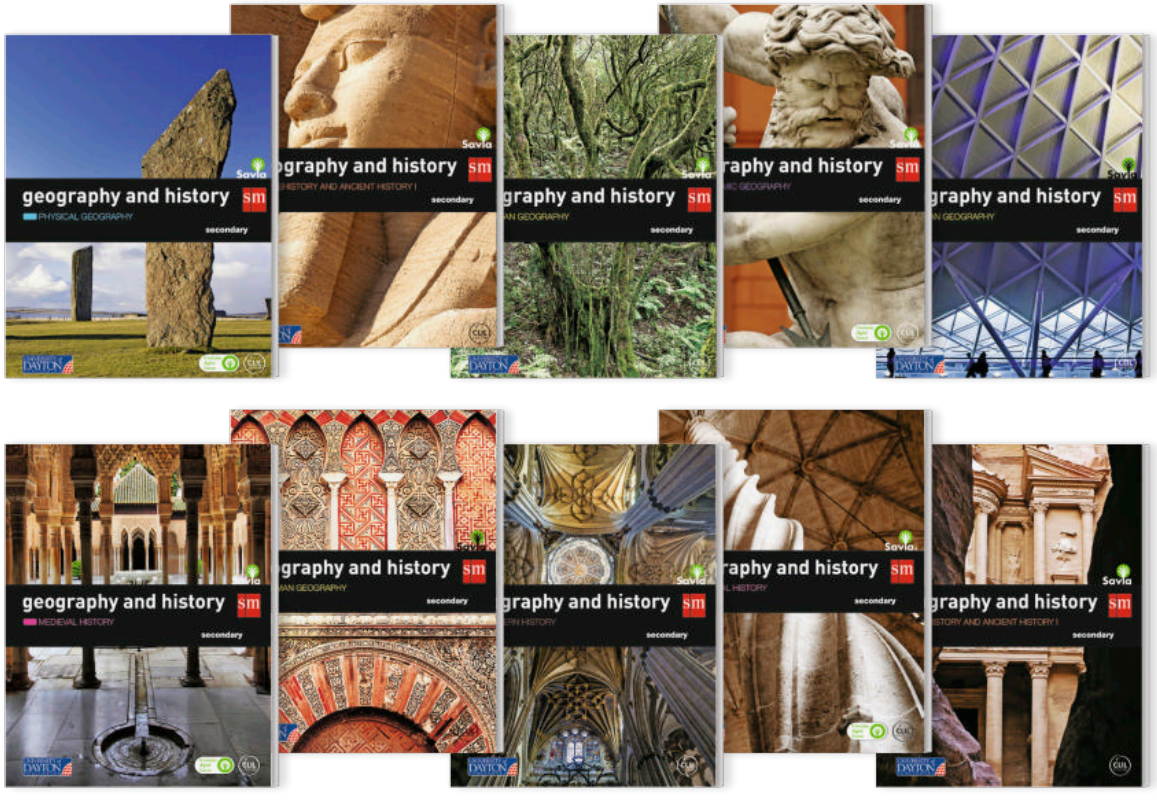
Savia Secondary **Geography and History**

This course presents content in context and encourages students to build skills that help them apply their knowledge in the real world.

FOR STUDENTS

STUDENT's book

The course contents are organised into different colour-coded volumes, and follow the curriculum of each Autonomous Community.



DIGITAL RESOURCES

Your students' personal workspace.

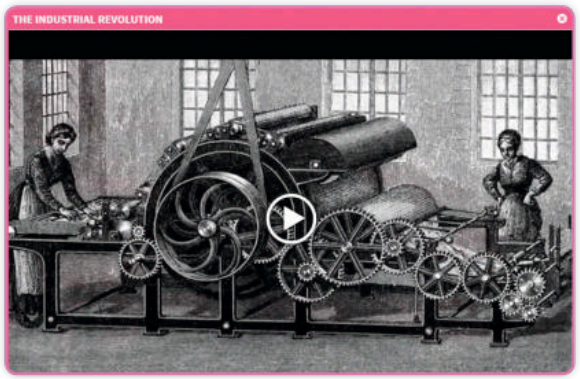
FOR TEACHERS

TEACHER's book

> Teaching notes.
> Answer key.
> Audio transcripts.
> Unit map outlining content and resources.

DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our website.



KEY FEATURES

Content

introduced through questions and scenarios that students can relate to.

Visual content

includes eye-catching photos and illustrations that bring the content to life.

Skill-building activities

The Let's interpret, Let's analyse and Let's investigate sections help students build skills through hands-on activities.

Savia Secondary **Visual Arts**

The course presents content through examples of the real world. Students study the cases and learn artistic techniques through a range of activities.

FOR STUDENTS

STUDENT's book

The beautifully illustrated book presents a wide range of artistic techniques, aimed at sparking the students' interest in art and stimulating their creative spirit.

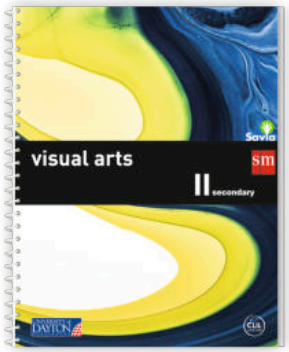
DIGITAL RESOURCES

Your students' personal workspace.

FOR TEACHERS

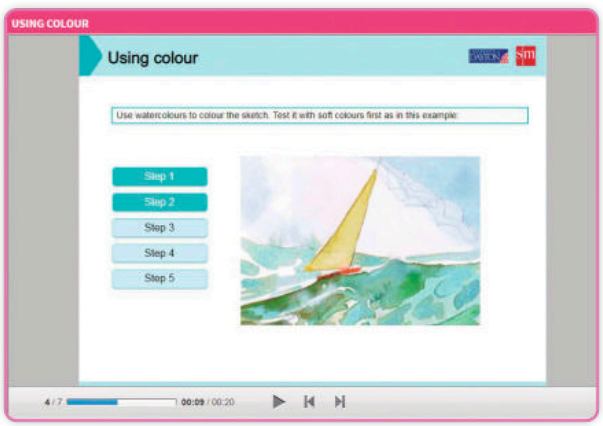
TEACHER's book

> Unit map outlining content and resources.
> Teaching notes.
> Answer key.
> Audio transcripts.



DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our website.



KEY FEATURES

Content introduced through questions and scenarios students can relate to.

Eye-catching images accompany content that is drawn from the real world and presented in context, in order to motivate students and ensure a meaningful learning process.

Term reference

This section at the back of the book summarises all of the artistic techniques that the students have mastered, for easy reference.

Alternating theory and practice

Students learn theory on one side of each double page and apply it on the other.

Key Concepts for Primary and Secondary

Key Concepts offers a flexible way to approach content in English. There are versions for:

- **Primary: Natural Science and Social Science**
- **Secondary: Biology and Geology and Geography and History**

FOR PUPILS AND STUDENTS

CLASSROOM BOOK

Key Concepts is a series of books aimed at presenting the most important content in an easy-to-understand way.

The content is accompanied by beautiful illustrations and visual summaries.

Content is age-relevant and graded according to the Common European Framework of Reference for Languages to facilitate the learning process.

A range of speaking activities foster the communicative approach.

DIGITAL RESOURCES

A digital version of the book and associated resources are available for download from our website.

> Audiobook

> Content videos

> Answer key

KEY FEATURES

Audiobook

teacher's can enhance the learning process, and reinforce content and language with listening activities.

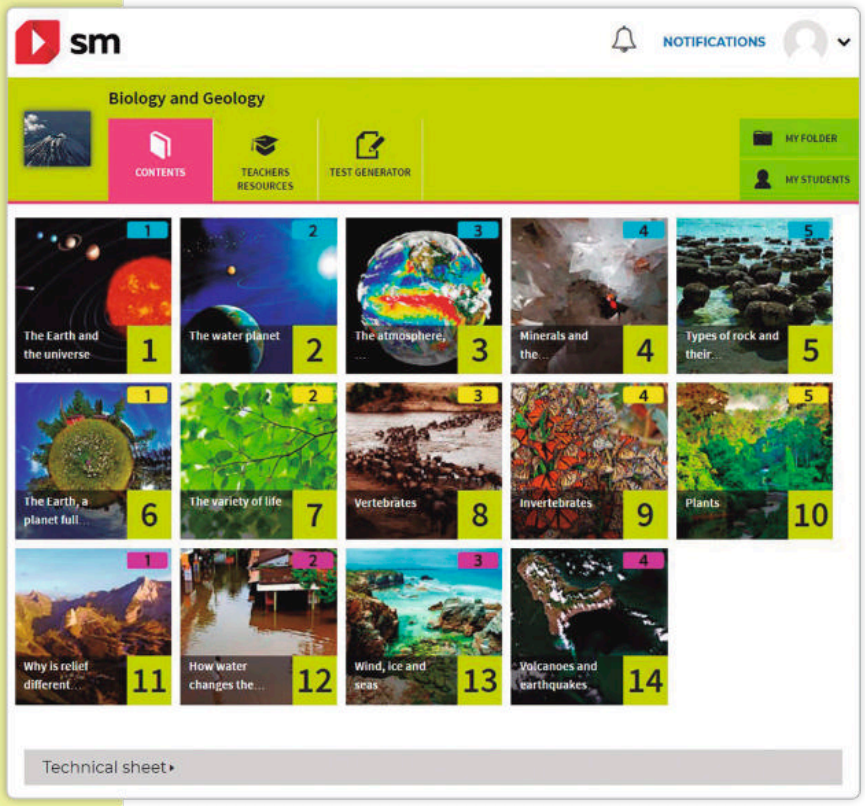
Scientific method

through science tasks and workshops.

Your environment

https://login.educamos.sm

SM's learning environment makes resources easily accessible, with a personalised service. The platform offers a flexible and easy-to-use online environment, with mixed ability activities, reports, specialised materials, and much more.



ACCESS FROM ANY DEVICE

Everything you need is at the touch of a button! Access a wealth of resources and tools from classroom, computer or tablet.

OFFLINE

No WiFi, no problem! Work offline with our handy app.

INTERACT WITH CHILDREN OR FAMILY MEMBERS

through the forums and the student's Learning Diary.

Motivate your students

with games, online competitions, hands-on resources, tutorials, videos and reading activities.

Reach all your students

send worksheets and activities, or create groups and assign tasks to individual or multiple members.

Flexible assessment

includes test generator, revision tools (by unit or term), ideas for interactive activities, comprehension rubrics, speaking tasks, etc.

Work offline with the Up to date app

- Work offline
- Work anywhere
- Work on the go

Supporting you **every step of the way!**

SM/UDP wants your classes to be the best classes. You can count on the support of team of professionals with extensive experience in educational training and language teaching.

Teacher training for educators of all levels

One of SM/UDP's founding principles is a belief in the need to support the teaching community in its quest for **educational excellence**. We believe that this should be carried out through **personalised learning**, and by providing teachers with support, every step of the way.

On-line training, Webinars

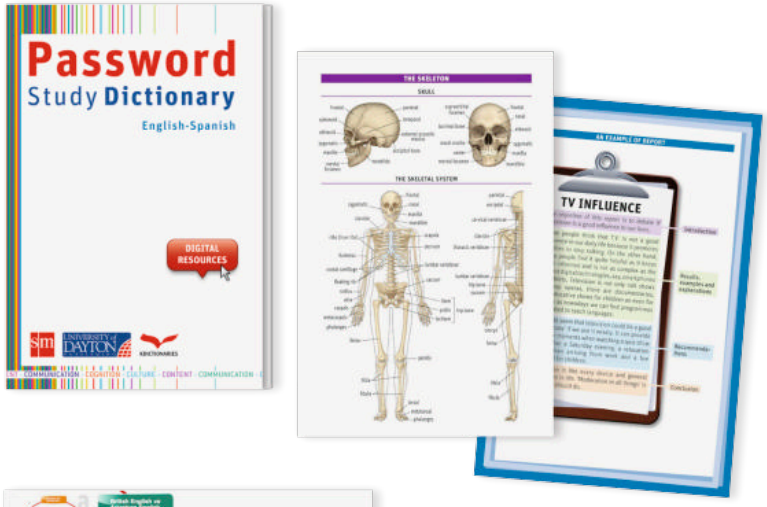
Our **CLIL** and **ELT workshops** provide educators with a wealth of knowledge and support for teaching content in English. We show teachers how to help students reach a state of zero uncertainty through communicative games and activities.

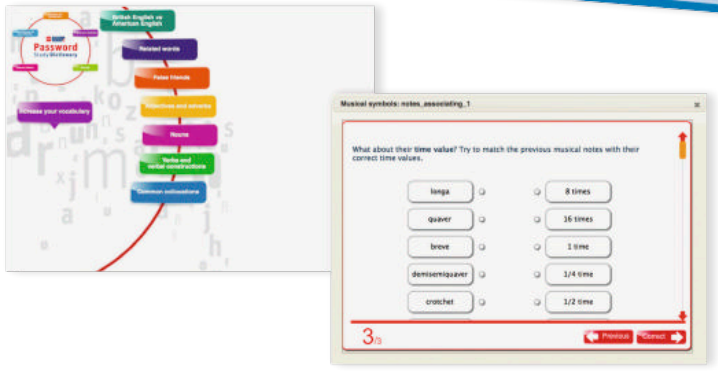
English **dictionaries**

My World Learner's Dictionary and Password Study Dictionary are English dictionaries developed specifically for Spanish learners of English.

PASSWORD STUDY DICTIONARY

Developed specifically for **Secondary students**. Includes interactive activities. Featuring specific sections providing practical study support for official examinations.





MY WORLD LEARNER'S DICTIONARY

Developed specifically for **Primary pupils**. Includes interactive activities.
